## **Job Description and Requirements for the role of CORS Content Guarantor**

### **Context**

CORS is the acronym for Erasmus+ Project 622818-EPP-1-2020-1-CZ-SPO-SCP (European system for training of Sport Climbing Coaches and Routesetters), which is funded until 31/12/2023.

The CORS Project will create a system to improve professional standards for Coaching and Routesetting in Sport Climbing. The main goal of the project is to develop high-quality training materials and methods to deliver the system of Coaches and Routesetters training. The measurable targets are:

- To create a described process of improvement of Coaches and Routesetters competence and knowledge;
- To deliver pilot training workshops to train Europe-elite standard Coaches and Routesetters using these materials and methods;
- To set up and populate a sustainable online Learning Management System containing those materials and methods.

The CORS Project is overseen by the Steering Committee, comprised of the project partners - National Federations (the CMF (Czech Republic – lead partner), PZA (Poland), SKF (Sweden), SMU James (Slovakia), PZS (Slovenia), NSAS (Bulgaria)), the IFSC – the international governing body of the sport - and its European Council (IFSC Europe).

### **The Role**

A Content Guarantor is sought for the CORS Project. The role is initially offered as a one-year part-time (40%) contract, extendable until the scheduled end of the CORS Project. The salary is contingent on economic conditions in the role holder's country of employment (one of project partner's country). The pattern of work is subject to negotiation during the appointment process.

Applications are welcome from any resident of the IOC Europe area. As the role includes working closely with the partner IFSC National Federations, proximity to one of those main offices may be an advantage.

### **Job Description**

- The role holder, in conjunction with the Project Manager, forms the initial Working Groups, composed of experts in their field nominated by the partners.
- The role holder provides the Terms of Reference, the list of deliverables and the timeline for each Working Group, chairing and providing an agreed record of each meeting.
- The role holder co-ordinates with each member of the Working Groups, co-reviewing and co-revising the proposed methods and materials.
- The role holder places a key role in the procurement of the Learning Management System, and in co-ordination with the IFSC Sport Department, devises both a storage structure and an online structure for the finalised materials and methods.
- The role holder works closely with the IFSC Sport Department to ensure consistency with International Coaches' Licence and International and Continental Routesetters' career path.
- The role holder works with the partners and IE to schedule and deliver the pilot training workshops.

Co-funded by the  
Erasmus+ Programme  
of the European Union
