

INTERNATIONAL FEDERATION OF SPORT CLIMBING

IFSC SUSPENDS WORLD CUP IN MOSCOW

PRESS RELEASE 2022/05

Torino - 25 February 2022

Following a series of consultative meetings with different stakeholders today, the International Federation of Sport Climbing (IFSC) decided to suspend the IFSC Boulder and Speed World Cup scheduled for 1 to 3 April 2022 in Moscow.

The decision was taken following consultation with and approval of the IFSC Athletes' Commission.

IFSC President Marco Sclaris held several meetings today. During his discussion with the Ukrainian Mountaineering and Climbing Federation (UMF), he expressed the solidarity of the IFSC and the entire Climbing community with the people of Ukraine during this unprecedented crisis. President Sclaris added that he hoped the conflict in Ukraine would end quickly and peacefully without any further violence.

The IFSC intends to relocate the event to another location, with an announcement to follow once a new host has been selected.
