

## Press release

### **IFSC Climbing World Youth Championships – Nouméa 2014**

Paris, January 31, 2014

#### **Dates change for the Climbing World Youth Championships in New Caledonia.**

Following the Christmas events on the climbing wall of Nouméa, the French federation, in accordance with the local organizer and the international federation, decided to postpone the dates of the IFSC Climbing World Youth Championships.

The new dates will be September 20<sup>th</sup> to 24<sup>th</sup>.

In order to make easier logistics for the National Federations, the French federation is working with some airlines companies and a travel agency to propose cheap flying rates. The flights departures will be possible from different cities and countries.

An Internet link where National Federations can find all the information to book travels for their competitors, team officials and accompanying people will be available soon.

The same process will be implemented for hotels and collective accommodations. And, as usual for a World Championship, some low price nights will be booked for the solidarity project.

The French federation will provide new information as soon as it is available.

**Fédération Française de la Montagne et de l'Escalade**  
8-10 Quai de la Marne - 75019 Paris
